

Thirty-Fourth Annual Announcement

(114)

The
Bennett College
of
Eclectic Medicine
and
Surgery
Chicago, Ill.

1901-1902

College Calendar, 1901 and 1902

1901

September 24.....Term Begins.
November 28.....Thanksgiving Day Recess.
December 22.....Christmas Vacation Begins.

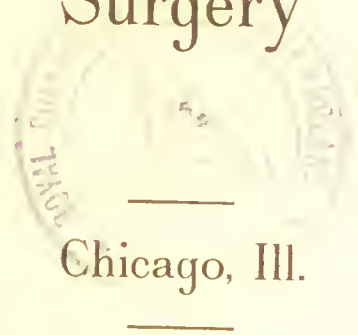

1902

January 2.....Christmas Vacation Ends.
February 22.....Washington's Birthday Recess.
May 12.....Class Day.
May 13.....Commencement, 2 P. M.
May 13.....Alumni Reunion and Banquet, 8 P. M.

The regular term commences Tuesday, September 24, 1901, at 8 P. M.
and continues eight months, closing Tuesday, May 13, 1902.

CHAS. H. FRANCIS, M. D.

Faculty.

- H. K. WHITFORD, M. D. 103 State Street
Emeritus Professor of Principles and Practice of Medicine.
- ANSON L. CLARK, A. M., M. D., Dean Elgin, Ill.
Professor of Surgical Diseases of Women and Clinical Gynecology.
- E. J. FARNUM, M. D., Junior Dean 103 State Street
Professor of the Practice of Surgery.
- N. A. GRAVES, M. D., Secretary 518 West Chicago Avenue
Professor of the Principles and Practice of Medicine.
- E. M. READING, A. M., M. D. 103 State Street
Professor of the Diseases of the Respiratory and Circulatory Organs.
- ARTHUR H. READING, M. D. 6600 Jackson Boulevard
Professor of Obstetrics.
- FINLEY ELLINGWOOD, M. D. 103 State Street
Professor of Materia Medica and Therapeutics.
- A. W. STRONG, LL. B. 1016 Ashland Block
Professor of Medical Jurisprudence and Lecturer on Insanity.
- SAMUEL FALLOWS, A. M., LL. D. 967 West Monroe Street
Professor of Mental Physiology.
- HUGO WIGHTMAN, M. D. 412 Fulton Street
Professor of Chemistry, Histology, Bacteriology, Pathology
and Clinical Diagnosis.
- W. HARRISON HIPP, M. D. 100 State Street
Professor of Surgical Gynecology.
- RALPH H. WHEELER, M. D. 126 State Street
Professor of Anatomy and Demonstrator.
- J. C. DELPRAT, M. D. 126 State Street
Professor of the Principles of Surgery.
- H. P. PRATT, M. D. Masonic Temple
Professor of Electro-Therapeutics.

BENNETT COLLEGE.

- JESSIE G. FORRESTER, M. D.-----479 Fullerton Avenue
Professor of Medical Gynæcology.
- E. G. TROWBRIDGE, M. D.-----103 State Street
Professor of Diseases of Eye, Ear, Nose and Throat.
- H. F. BENNETT, M. D.-----571 West Madison Street
Professor of Orthopædic Surgery.
- CHARLES H. FRANCIS, M. D.-----531 Burling Street
Professor of Brain and Nervous Diseases and Clinical Medicine.
- H. E. WHITFORD, M. D.-----63d Street and Stewart Avenue
Professor of Venereal Diseases and Dermatology.
- HENRY SCHMITZ, M. D.-----508 West Chicago Avenue
Professor of Diseases of Children.
- J. A. JENNINGS, M. D.-----1627 Ogden Avenue
Professor of Hygiene.
- R. M. TAFEL, M. D.-----Chicago Heights, Ill.
Professor of Minor Surgery.
- C. O. DORCHESTER, M. D.-----261 La Salle Avenue
Professor of Physiology.
- J. V. BROWN, D. D. S.-----380 Jackson Boulevard
Professor of Dental Surgery.
- E. A. DAVIDSON, A. B., M. D.-----319 East Division Street
Assistant in Materia Medica and Instructor in Latin.
- A. J. FOELSCH, M. D.-----126 State Street
Assistant in Anatomy.
- CHARLES E. PHELPS, LL. M.-----882 Marquette Building
Assistant in Medical Jurisprudence.
- A. J. RAITHEL, M. D.-----1765 Wrightwood Avenue
Professor of Physical Diagnosis and Clinical Medicine.
- HUGO E. BETZ, M. D.-----5500 South Halsted Street
Assistant in Clinical Dermatology.

ANNOUNCEMENT.

THIRTY-FOURTH ANNUAL ANNOUNCEMENT OF THE BENNETT COLLEGE OF ECLECTIC MEDICINE AND SURGERY.

The thirty-fourth annual session of the Bennett College of Eclectic Medicine and Surgery will begin Tuesday, September 24, 1901, and continue eight months. The opening exercises will be held at 8 p. m. in the lower amphitheater of the College building. The college session will close Tuesday, May 13, 1902, on which day public commencement exercises will be held.

The course of instruction leading to the Degree of Doctor of Medicine covers four collegiate years and consists of lectures, recitations and laboratory work, with regular attendance at the Dispensary and Hospital Clinics. While a medical education gives sufficient scientific study to thoroughly train the mind, it is also developed from a vast number of object lessons, which trains the student to think and form conclusions based upon scientific and clinical knowledge.

Confidence is induced as the student advances from year to year and when he completes his course in this college he is thoroughly qualified to practice the healing art. The clinical advantages of the college are not excelled. The student comes in contact with and assists in the examination, diagnosis and treatment of hundreds of patients during his course. The interest of the student for a higher and more practical medical education has been considered in the arrangement of the work in every department. The Eclectic School maintains its individuality by its discoveries and advancement in Materia Medica and Therapeutics and in the practice of using a particular drug for a definite group of symptoms.

The college has always considered Therapeutics and Materia Medica an essential part of the medical practice. Specific medication, or the art of prescribing the most simple and direct remedy to correct diseased conditions in the shortest possible time, is a distinctive feature in the teaching in this college. These conditions in their various manifestations are studied from the standpoint of specific diagnosis.

While the test of practical experience has led Eclectic Physicians to believe in specific medication, all scientific investigators delight

in the freedom of personal opinion, which is characteristic of Eclecticism.

THE COLLEGE BUILDING.

The college building is large and substantial, situated at the corner of Ada and Fulton streets, in the great hospital and college district of Chicago. It contains two large well ventilated and well lighted amphitheaters, two lecture rooms, laboratories, three clinic rooms, library and reading room, drug room, dissecting room, retiring rooms, etc. All the different departments are well stocked and equipped for college purposes.

The situation of the college is such that a large number of clinical patients apply for treatment daily, being all that is required for clinical purposes.

The Bennett Hospital is situated on adjacent ground and is connected with the college so as to facilitate the care of clinical patients after operations. The clinical departments are supplied with medicines, surgical equipments and suitable attendants.

RECEPTION OF WOMEN.

The repeated demands for recognition from many women have led the Board of Trustees to make ample preparation for their reception. In no field of labor has woman so great an advantage as in the practice of medicine, and the eminent place which our graduates have taken in the profession testifies that the Eclectic School is pre-eminently adapted to the independence of character which qualifies women to undertake the arduous duties of and to make a success of the medical profession. Women are given the same instructions as men in all the branches of medicine and surgery.

DIRECTIONS TO STUDENTS.

Students coming to Chicago with the purpose of attending lectures are advised to come directly to the college building, corner of Ada and Fulton streets, where information will be given by the college clerk, regarding suitable boarding places.

To reach the college and hospital take either a Madison, Randolph or Fulton street car, going west to Ada street and thence north to the college, or take the Lake Street Elevated to Sheldon street station, which is within two blocks of the college.

BOARDING.

Special pains are taken to select boarding in private boarding houses where students will have the comforts of home, and a quiet

room in which to pursue their studies. Board and room can be had at from \$3.00 to \$6.00 per week. Some students procure a room and board themselves and are able to reduce the expense below \$3.00 per week. A committee of the College Young Men's Christian Association will assist in locating students in suitable rooms. After a room is selected the college clerk will give directions as to bringing baggage from the depot. Students desiring further or more specific information should correspond with the secretary.

PRELIMINARY REQUIREMENTS.

Recognizing the fact that a medical education must be based upon a thorough preliminary training, every student in preparing to take a medical course should have as a minimum amount of preparation a thorough high school course.

Those who do not possess a diploma or certificate showing the required preliminary education can take an examination at the beginning of the course. The entrance examination will be in conformity with the minimum requirements of the State Board of Health. It will include the following: English Composition, Higher Arithmetic, United States History, Geography, Elementary Physics or Natural History and Latin.

Students conditioned in one or more of the branches enumerated above will be given until the beginning of the second college year to make up such deficiency.

A special course in Latin will be given in the first year to those who are deficient.

REQUIREMENTS FOR ADMISSION AND ADVANCED STANDING.

1. A credible certificate of good moral character signed by two physicians of good standing in the state from which the applicant comes.
2. Candidates for admission will be required to deposit with the Secretary the sum of five dollars, for matriculation, and present diploma of graduation from a literary or scientific college or high school, or pass a satisfactory examination in conformity with the minimum requirements of the State Board of Health.
3. Certificates of having passed satisfactory examinations in our first, second and third year courses, from other medical institutions in good standing, will be accepted by this college.
4. Graduates from pharmaceutical, dental and veterinary schools

may be allowed one year's advanced standing on a four year medical course, only on condition that they comply with the entrance requirements and pass all the examinations and perform all the laboratory work embraced in the course of the freshman year.

5. Students having attended other medical colleges and expecting credit for such attendance must present their certificates of attendance to the Secretary. Examination markings given by other medical colleges in good standing will be accepted on branches of the first, second and third year courses.

6. Graduates of literary colleges who have taken a preparatory medical course are allowed advanced standing.

7. Graduates of medical colleges in good standing will be admitted to the senior year without examination.

REQUIREMENTS FOR GRADUATION.

1. Attainment of twenty-one years of age.
2. Credible certificate of good moral standing and exemplary conduct while in college.
3. Attendance on four courses of medical lectures of eight months each.
4. Regular attendance during the course on lectures, clinics and quizzes.
5. Satisfactory examination in all branches, with a rating of not less than 80 per cent. average.
6. Attendance on two courses of lectures on anatomy and dissection of a lateral half of a cadaver.
7. All fees must be paid in full.

COLLEGE FEES.

A matriculation fee of five dollars will be charged on entering the college.

Fee for first year.....	\$100 00
Fee for second year.....	100 00
Fee for third year.....	100 00
Fee for fourth year.....	100 00

A scholarship ticket which includes all fees for the entire course will be issued for..... 300 00

Students will be required to deposit with the Secretary five dollars for security against damage to laboratory or college furniture to be returned if not forfeited.

Graduates from other recognized medical colleges may attend a

full course of lectures in this college by paying a fee of \$50 and matriculation fee. If they apply for graduation they will be required to pay \$50 additional and take examinations in the fourth or senior year studies.

All fees are required to be paid in advance.

*COURSE OF INSTRUCTION.**

FIRST YEAR STUDIES.

ANATOMY—General and descriptive anatomy of soft parts. Lectures illustrated by charts and fresh dissections, and recitations four hours a week. Dissection every afternoon excepting Saturday after November 1st.

OSTEOLOGY—Lectures and recitations two hours a week. Students can obtain a skeleton to study from by making a small deposit to insure its safe return.

CHEMISTRY—General inorganic and analytical. Lectures two hours per week. Laboratory three hours per week.

PHYSIOLOGY—Lectures and recitations three hours a week, on the blood, circulation, respiration, digestion, etc.

HISTOLOGY—Recitations and laboratory work five hours a week. Microscopes and apparatus are furnished to study normal histology. Students furnish their own mounting outfit, costing about \$2.50.

MATERIA MEDICA—Familiarity with drugs and general pharmacy. Recitations three hours per week.

MENTAL PHYSIOLOGY—Lecture one hour a week, showing the reciprocal relation of mind and body.

LATIN—A special course will be given to students who are deficient.

Examinations will be held on all first year branches and be final in Osteology, Histology, and Materia Medica.

SECOND YEAR STUDIES.

ANATOMY—Gross and minute anatomy of the soft parts and the nervous system. Anatomy of the joints and special organs. Five hours a week. Dissections.

CHEMISTRY—Lectures one hour per week and laboratory work two hours per week. Toxicology and urinary analysis with tests for arriving at a correct diagnosis. Two hours a week.

PHYSIOLOGY—Nervous system, special senses, animal heat, etc., two hours a week. Laboratory study of digestion.

The College reserves the right to make such changes in this curriculum as may prove necessary.

PATHOLOGY—Gross and microscopical, of diseased conditions. Bacteriology, lectures and recitations. Six hours a week.

THERAPEUTICS—Physiological action of drugs and the specific indications for each remedy studied by lectures and recitations, three hours a week.

PHYSICAL DIAGNOSIS—Lectures, recitations and clinics, one hour a week.

HYGIENE—Sanitation, quarantine, disinfection, sewerage, cleanliness of cities, etc., one hour a week.

MENTAL PHYSIOLOGY—One hour a week.

DENTAL SURGERY—One hour a week.

MINOR SURGERY AND BANDAGING—One hour a week.

Examinations in all second year studies and final in anatomy, chemistry, physiology, pathology, dental surgery, minor surgery, physical diagnosis, hygiene and mental physiology.

THIRD YEAR STUDIES.

THERAPEUTICS—Specification of remedies for special indications, three hours a week.

PRINCIPLES AND PRACTICE OF MEDICINE—Principles of specific medication and specific diagnosis. Lectures and clinics, four hours a week.

DISEASES OF CHILDREN—Lectures, recitations and clinics, three hours a week.

DISEASES OF THE RESPIRATORY AND CIRCULATORY ORGANS—One hour a week.

BRAIN AND NERVOUS DISEASES—Two hours a week.

SURGICAL ANATOMY—Lectures and operations on the cadaver, one hour a week.

PRINCIPLES OF SURGERY AND FRACTURES AND DISLOCATIONS—Two hours a week.

PRACTICE OF SURGERY—Lectures and clinics three hours a week.

OPERATIVE SURGERY—Lectures and clinics three hours a week.

ORTHOPEDIC SURGERY—Recitations one hour a week.

MEDICAL GYNECOLOGY—Lectures and clinics two hours a week.

SURGICAL GYNECOLOGY—Lectures and clinics two hours a week.

OBSTETRICS—Theory and practice, two hours a week.

ELECTRO THERAPEUTICS—Lectures and clinics two hours a week.

MEDICAL JURISPRUDENCE—Lectures and recitations one hour a week.

Examinations in all third year studies and final in therapeutics, surgical anatomy, principles of surgery, orthopedic surgery and electro-therapeutics.

FOURTH YEAR STUDIES.

PRINCIPLES AND PRACTICE OF MEDICINE—Specific diagnosis and specific medication taught by lectures, recitations and clinics four hours a week.

DISEASES OF CHILDREN—Lectures and clinics three hours a week.

DISEASES OF THE RESPIRATORY AND CIRCULATORY ORGANS—Lectures one hour a week.

BRAIN AND NERVOUS DISEASES—Two hours a week.

PRACTICE OF SURGERY—Lectures and clinics three hours a week.

OPERATIVE SURGERY—Lectures and clinics three hours a week.

ORIFICIAL SURGERY—Lectures and clinics one hour a week.

MEDICAL GYNECOLOGY—Lectures and clinics two hours a week.

SURGICAL GYNECOLOGY—Lectures and clinics two hours a week.

OBSTETRICS—Practical demonstrations two hours a week.

DISEASES OF EYE AND EAR—Lectures and clinics two hours a week.

DISEASES OF NOSE AND THROAT—Lectures and clinics two hours a week.

VENEREAL DISEASES AND DERMATOLOGY—Lectures and clinics two hours a week.

MEDICAL JURISPRUDENCE—Lecture and recitations one hour a week.

All students taking the third and fourth year courses will be required to attend punctually the clinics of their year and also the clinics of the Cook County Hospital. They are also required to attend the autopsy at the County Morgue.

STANDING OF STUDENTS AND EXAMINATIONS.

The standing of each student in each branch will be determined by the professor or instructor in charge of the chair and the grade will be made up from his daily attendance, class quizzes and written examinations. Each student is expected to be punctual and regular in attendance on the exercises of his year and to take the examinations that are required by the instructor and that are indicated in the course of study. In case of sickness, he may be excused or given his examination at a later time. The grades will be on the scale of 100; 90 to 100 passed with distinction; 80 to 90 passed; 60 to 80 conditioned; below 60 failed.

Students of the first, second or third year who are conditioned may have another written examination at the opening of the succeeding term or they may repeat the study and be examined with the next class. Students who have failed in three branches or are condi-

tioned in a majority of studies in any year must repeat the year's course.

Those students who have paid their fees and have completed the first, second or third year course will be given a certificate of examination on studies that are final in that year.

CLINICAL INSTRUCTION.

In addition to the general attendance upon clinics, the junior and senior students are formed into sections, or clinic classes, in which everyone, in rotation, is required to do actual work in making diagnosis, administering remedies, giving anæsthetics and performing surgical operations.

The free dispensary clinics are held regularly throughout the year and students and practitioners are invited to bring patients for clinical diagnosis and treatment.

The college teaches practical obstetrics by attendance on out-patients at their homes and in the maternity ward in the Bennett Hospital which is under the supervision of the hospital committee. Senior students are assigned to this service in groups of five.

The following is the schedule for the weekly clinics:

MONDAY.—Brain and Nervous Diseases—1 to 3, Prof. Francis.

General Medical Clinic—3 to 4, Prof. Graves.

Skin and Venereal Clinic—4 to 5, Prof. H. E. Whitford.

TUESDAY.—Eye, Ear, Nose and Throat Clinic—1 to 2, Prof. Trowbridge.

Surgical Clinic—2 to 4, Prof. Farnum.

Children's Clinic—4 to 5, Prof. Schmitz.

WEDNESDAY AT COOK COUNTY HOSPITAL.

Medical—1 to 2:30.

Surgical—2:30 to 4.

Gynecological—4 to 5.

By the Eclectic Attending Staff.

THURSDAY.—Gynecological Clinic—1 to 2:30, Prof. Hipp.

Children's Clinic—2:30 to 4, Prof. Schmitz.

FRIDAY.—Brain and Nervous Diseases—1 to 2:30, Prof. Francis.

Surgical Clinic—2:30 to 4, Prof. Delprat.

Dermatological Clinic—4 to 5, Prof. Betz.

SATURDAY.—Eye, Ear, Nose and Throat Clinic—1 to 3, Prof. Trowbridge.

Gynecological Clinic—3 to 4, Prof. Forrester.

POST-GRADUATE COURSE.

The advantages offered practitioners by this college for a post-graduate course are not excelled by any other institution. The studies in the senior year work are practical in every particular. They are supplemented by a great variety of daily clinics in which there is opportunity for practitioners to become familiar with the latest methods both of diagnosis and treatment. Facilities will be furnished those who desire to pursue any particular line of laboratory work.

Practitioners can enter at any time between September 17, 1901, and May 1, 1902. They can take the work in any department of the regular course of study that they may desire at a cost of \$35.00. A post-graduate certificate will be issued to the practitioner any time after a four weeks' attendance and the payment of the fee. Those wishing to take a post-graduate course should enroll their names in the college office at their earliest opportunity. Practitioners of any school may take this course.

Graduates of medical colleges may, by attending one full college term and fulfilling the requirements, receive the regular diploma from Bennett College by paying \$100.00 and a matriculation fee. This plan of post-graduate work is recommended, as it offers to the practitioner the advantages of a later college course.

HOSPITAL PHYSICIANS.

House physicians are appointed from each graduating class to serve as internes, thus giving to those who desire to avail themselves of this opportunity a most thorough and practical finish. Four internes with their alternates are chosen by competitive examination to serve eighteen months in the wards of the Cook County Hospital. One interne is appointed to serve in the Chicago Baptist Hospital, one to serve in the Bennett Hospital, one to serve in the National Christian Temperance Hospital, one to serve in the St. Anthony's Hospital and one in St. Girard Hospital.

Internes are given their board, room and washing for their service in the hospital. These hospital appointments are of great value.

*HOSPITALS.**BENNETT HOSPITAL.*

Bennett Hospital has been thoroughly repaired and re-furnished throughout and is under the authority of the Board of Trustees of The Bennett Medical College. It is adjacent to the college building

and connected with it so as to facilitate the care of all patients that are used as clinics in the college building. Every arrangement has been perfected by which the patients can have the very best attention.

A movement is on foot at the present time to build a new hospital to accommodate the increasing demands for hospital purposes. Students will be admitted to the wards of the hospital when accompanied by some member of the attending staff and receive bedside instruction.

Any physician in the city or country may place patients in the hospital, and the patients are under the immediate supervision of their physician.

Patients who are sent to the institution to be used as clinics in the college will receive professional services free of charge.

The hospital charges range from \$10.00 to \$35.00 a week according to the requirements of the patient. This charge includes board, room, the necessary medicines and ordinary nursing. All money paid the hospital goes directly into the hospital fund.

A few of the best rooms will be reserved for private patients, sent there by any physician who wishes to have the patient under his exclusive charge.

The direct management of the hospital is under the superintendent, house physician and the hospital committee.

Hospital Committee.

E. J. FARNUM, M. D.	N. A. GRAVES, M. D.
JESSIE G. FORRESTER, M. D.	

House Physician.

Pathologist.

HUGO WIGHTMAN, M. D.

COOK COUNTY HOSPITAL.

This charitable institution is one of the largest and best equipped general hospitals in the country. It was erected at a cost of a million of dollars and stands on a block of twelve acres of ground. It accommodates twelve hundred patients, and all of the twenty-six wards are constantly full to overflowing. It is near to the college, and has daily medical and surgical clinics. Besides these advantages are added those of the immense opportunities to study pathological anatomy, as well as the methods of making *post-mortem* examinations.

The immense amphitheater of the hospital, with a seating capacity for six hundred students, is also the clinic-room in which all the medical, surgical and special clinics are held, and is open to our students. Over seven thousand patients are treated here annually, and the daily average in past years has been seven to eight hundred. Such clinical advantages are not surpassed by any medical institution in the country in regard to variety and importance of cases treated.

Twenty-six large wards, in charge of over thirty physicians and 150 trained nurses, are devoted to the care and treatment of patients.

Students here witness, during the year, all varieties of amputations and capital operations, including laparotomy, herniotomy, excision of tumors, resections of joints, trephining and nerve stretching.

In the Eclectic department of the hospital the following professors of Bennett Medical College hold positions on the staff:

Surgeons.

E. J. FARNUM, M. D.

J. C. DELPRAT, M. D.

W. H. HIPP, M. D.

Physicians.

N. A. GRAVES, M. D.

HUGO BETZ, M. D.

H. F. BENNETT, M. D.

J. L. URHEIM, M. D.

CHARLES H. FRANCIS, M. D.

Pathologist.

HUGO WIGHTMAN, M. D.

HOUSE STAFF.

Chosen each year by competitive examination from the graduating class of Bennett College.

RALPH HERBERT, M. D.

JOHN SEAPY, M. D.

CARL VOGEL, M. D.

R. V. WILLIAMS, M. D.

A. FOERTER, M. D.

JOHN AXELSON, M. D.

F. F. HOFFMAN, M. D.

A. M. PURVES, M. D.

On each Wednesday afternoon, at 1:30, the Eclectic staff holds its clinic in Cook County Hospital and presents many interesting and important cases to the class.

BAPTIST HOSPITAL.

The Baptist Hospital offers its advantages to our students. The following members of Bennett Faculty are on the attending staff at the Baptist Hospital:

JNO. C. DELPRAT, M. D.

E. J. FARNUM, M. D.

AT ST. GIRARD HOSPITAL.

W. HARRISON HIPP, M. D.

W. J. POLLOCK, M. D., Interne.

AT ST. ANTHONY'S HOSPITAL.

E. G. TROWBRIDGE, M. D.

CHAS. H. FRANCIS, M. D.

J. A. RAITHEL, M. D.

PRACTICAL ANATOMY, DISSECTING AND OPERATIONS ON THE CADAVER.

We offer the very best advantages for the study of practical anatomy. Our dissecting room is commodious, and is provided with an abundance of material. Each student must dissect at least one part of the human body each term, under the direction of the Demonstrator.

In the anatomical amphitheater all operations are performed on the cadaver. Each student must take two courses, and must perform operations under the direction of the Professor of Surgery. Such operations as trephining, ligating, resections of nerves and joints, laparotomy, tracheotomy, and, in fact, all important surgical operations will be demonstrated in this way, and the anatomy involved in each will be fully explained.

TEXT BOOKS.

The following text books, among others, are considered standard, and are recommended by the Faculty:

Anatomy—Gray, Holden, Quain, Dutton, Morris, Haynes.

Chemistry—Ellingwood, Lloyd, Simon, Witthaus.

Children's Diseases—Scudder, Taylor and Wells, Rotch, Smith, Starr, Holt.

Dermatology—Fox, Shoemaker, Hardway.

- Diagnosis, Physical*—Page, Herriek, Loomis, Da Costa.
- Gynecology*—Clark, Howe, King, Skeene, Emmet, Seudder, Gariques, Reeds.
- Osteology*—Gray, Wilson, Leidy, Holden.
- Microscopy*—Lyon, Carpenter, Frey, Davis.
- Histology*—Piersol, Klein, Schafer, Miller.
- Pathology*—Delafield and Prudden, Von Jakseh.
- Urinalysis*—Black, Peyer.
- Bacteriology*—Sternberg, Salomonsen, Novy.
- Clinical Medicine*—Simon, Da Costa.
- Hygiene*—Coplin and Bevan.
- Veneral Diseases*—Lydston, Taylor, Van Buren and Keys, Keys.
- Heart and Lungs, Diseases of*—Loomis, Flint.
- Medical Jurisprudence and Insanity*—Strong, Taylor, Beck, Reese, Brown, Ryan, Chapman, Wharton.
- Laryngology and Rhinology*—Sajous, Bosworth.
- Materia Medica and Therapeutics*—Ellingwood, King's American Dispensatory, Seudder, Loeke, Goss, Merrell.
- Brain and Nervous Diseases*—Berkley, Dana, Govers, Hirt.
- Obstetrics*—King, Lusk, Playfair, King's Manual, Hirst, Jarman and Grandin.
- Ophthalmology and Otology*—Williams, Fuchs, Roosa, Noyes, Buck, Dench.
- Practice of Medicine*—Seudder, Goss, Webster, Anders.
- Principles of Surgery*—Nanerede.
- Physiology*—Kirk (15th Ed.), Woods, Stirling, Foster, Landois.
- Surgery*—Howe, Ashurst, Wyeth, McDonald, Holmes, Gerster, American Text Book, Tillman, Park.
- Surgery, Operative*—Bryant, Smith, Stinson, Rose and Carless.
- Surgery, Orthopedic*—Farnum.
- Surgery, Orificial*—Pratt, Matthews, Gant, Kelsey.
- Nose and Throat*—Kyle, Ives, Sajous.
- Medical Dictionary*—Duane.
- For information regarding prices, etc., of any or all medical books, and particularly the above-mentioned, write to Chicago Medical Book Co., S. E. cor. Congress and Honore Sts., Chicago. One block north of Cook County Hospital. Agents for all the Eclectic Medical Books published.
- Students may *matriculate* at any time and secure a good seat, in the judgment of the Secretary, by inclosing name with matriculation

fee (\$5.00) to Bennett Medical College, Chicago, Ill. Board and room will cost \$3 to \$6 a week.

The office of the college will be open for business from 9 to 4 o'clock every day except Sunday.

For further or more specific information address the Secretary,

N. A. GRAVES, M. D., 100 State St.

Bennett Medical and Library Association.

The Bennett Medical and Library Association was organized and chartered eleven years ago, and has for its active members nearly every matriculate and for honorary members the entire Faculty, besides a number of others eminent in the profession. The principal object of the Association is the formation of a medical reference library, and a very considerable number of volumes have been secured, to which constant additions are being made. A commodious and pleasant reading room is furnished in the museum, which is well supplied with periodicals and stationary for the students' use.

The care and distribution of books is under the supervision of a librarian appointed by the trustees, and only members of the Library Association are accustomed to the privileges.

The membership fee is *fifty cents* and the dues are *twenty-five cents* each year.

Quiz masters are elected from its membership for every chair in the college, and a diploma is issued to all members in good standing who have attended a full course of quizzes for three years.

The Alumni Association.

The Alumni Association will hold its annual meeting on Tuesday, May 13, 1902.

The officers of the Association for the year are: Chas. H. Francis, M. D., president; E. G. Trowbridge, M. D., secretary; Jessie G. Forrester, M. D., treasurer; E. G. Foltz, M. D., historian.

Each alumnus is urged to become an active, interested, attending member of the Association, and to send his name and address to the secretary and keep him informed of any changes.

Young Men's Christian Association.

The headquarters of the Interecollegiate Department of this organization is located in the beautiful building on Monroe street, near Ashland boulevard. Here are provided pleasant parlors, reading rooms, games, bath rooms, bowling alleys and a large gymnasium, all open to medical students for a nominal sum. The use of the gymnasium is recommended by many professional men as an aid to good health, especially for those leading the sedentary life of the student.

The Young Men's Christian Association of the college is a student organization doing aggressive Christian work by students for students. Any male student of good moral character may become a member.

upon payment of a nominal membership fee. In addition to its religious meetings, Bible classes, and other religious work, it does the following other things, in which the new student will be especially interested:

1. INFORMATION BUREAU.—During the opening days of school a committee of old students will be at the college to meet all new men and give them such information as will help them to get started on their year's work.

2. BOARDING HOUSE LISTS.—Previous to the opening of school, a committee will have canvassed the community and carefully compiled a list of suitable rooms and boarding places to which they can recommend students. This will greatly assist in getting comfortably settled.

3. RECEPTION.—Saturday night, the first Saturday night of the new term, a general reception will be held for both new and old students. This will give new students an opportunity to become acquainted.

4. HANDBOOKS AND MAPS.—A leather bound vest pocket handbook of useful information about the college, association and city will be given to every student on application. A special edition for mailing has been issued and will be sent free to all who send their names and addresses to the President of the Association.

5. PERSONAL CORRESPONDENCE.—Further information about the college, association, or city may be secured by writing to the President of the Association.

It is needless to add that no charges are made for these favors.

Bennett College and Hospital Training School for Nurses.

A training school for nurses has been established at the Bennett College and Hospital, and a regular course of study adopted that prepares the student nurse for a high standard of excellency in both the theory and practice of nursing.

The course consists of lectures and actual nursing under the direction of the superintendent of Bennett Hospital in the hospital building and cases outside of the hospital where the student may be assigned by the Superintendent. All lectures and instruction will be given for the services of the student while in training.

Room, board and washing will be furnished the nurses for the two years' course.

At the end of a successful course nurses will be expected to pass an examination on the theory and practice of nursing and a diploma from the training school will be granted.

Two years' study and attendance are required for graduation.

Only a limited number of student nurses will be accepted.

For further information address Superintendent of Bennett Hospital, 78 N. Ada St., Chicago, Ill.

Physicians can secure the services of nurses to nurse patients outside of the hospital by addressing the Superintendent. A register will be kept of graduate nurses that will be furnished when called for.

Graduating Class of 1901.

Francis P. Adams, M. D.

Julius Berliant.

Franklin E. Brady.

D. John Brix.

Wm. Perry Collins.

Ray Victor Converse.

Jos. Henry Davis.

Wm. Henry Dodds.

Virgil F. Dinsmore, M. D.

Wm. Nelson Du Vall, M. D.

Charles T. Eckermann, Ph. G.

Mrs. Clara Faulkner.

Adolph Foerter.

Charles C. Flinn.

Miss Margaret S. Grant, A. B.

Mrs. Grace Allen Graves.

Louis S. Graves.

Ulysses Grant Hipp.

Otto T. Hansen, Ph. G.

Frank F. Hoffman.

Jean Albert Jackson.

Ernst Jentzsch, V. S.

Charles Liessmann.

Ted Corey Light.

Wesley Light.

Joseph John Lumpp.

Eli M. Morehouse.

Charles H. Merritt, Ph. G.

Normal Tinctures.

Standardized—Alkaloidal strength always the same.

Uniform—Representing the drug minim for grain.

BRIGHT,
CLEAN,
RELIABLE,
NO WASTE MATERIAL,
NO DIRT—All Medicine.

Do not prescribe them because they bear a certain label, but because they are the best that science, skill and long experience can produce.

Normal Tinctures are made ON HONOR, and when properly prescribed will always meet specific indications.

A valuable book of 64 pages, giving therapy and doses of 125 of these Normal Tinctures, sent free, to physicians only, on request.
